

Class Project:

Pretend that you are the chairperson for a committee tasked with advancing the Florida Freedom bills referenced by Scott Plakon. Develop a strategy to work to get these bills signed into law.

1. What are the legislative steps each bill will need to go through?
2. Who are the key individual proponents and potential opponents?
3. What's the best way to apply public pressure and express the people's desire for passage?
4. Develop a recruitment strategy to involve others in support of these measures.
